SUMMARY

Double Major in Computer Science & Applied Software Engineering, specializing in full-stack systems. Proven developer and entrepreneur with experience refactoring monolithic architectures, building AI-driven tools, and giving award-winning pitches.

WORK EXPERIENCE

- Quantitative Analyst, Castellan Group** | Louisville, KY **May 2026 – Present**
- Developed a weekly market conditions outlook report, automating data extraction from the Bloomberg Terminal.
 - Conducted financial backtests evaluating parameter sensitivity and corresponding historical performance.
 - Analyzed sector dispersion trends and quantified their impact on overall fund performance
 - Evaluated the efficacy of covered call writing strategies on a targeted income fund's risk-adjusted returns
- Fidelity FCAT x NKU Paid Research Project** | Highland Heights, KY **Sept 2026 - Present**
- Researching and developing an AI Hedge Fund project using a coordinated team of specialized AI agents that can autonomously generate investment research, construct a thesis, identify trades, manage risk, and execute.
- Software Engineer, Fischer Homes** | Erlanger, KY **January 2025 – May 2026**
- Awarded the AI “Penny Pincher” award for developing a tool that analyzed large datasets to identify recurring issues.
 - Implemented new features, database migrations, and bug fixes.
 - Developed a Claude skill that allowed developers to automate testing task descriptions for each pull request.
- Owner & Computer Technician, Winfield Computing** | Flemingsburg, KY **August 2021 – December 2025**
- Automated business tasks by developing a profitability calculator, task scheduler, and JavaScript, increasing efficiency.
 - Utilized Linux-based operating systems for server hosting rented for AI workloads and blockchain validation.

PROJECTS

- NKU Community Themed Hackathon** | 1st Place Winner **October 2026**
- Directed market research to develop a React/Vite campus navigation application that provides real-time location tracking and interactive walking paths for students and visitors. The app features automated class routing via schedule uploads, direct navigation to campus events, optimized parking recommendations, and crowdsourced busyness ratings for campus facilities.
- NKU Haile Stock Pitch** | 1st Place Winner (\$2,500 Prize) **February 2026**
- Led a small collaborative team in performing rigorous fundamental and quantitative research to identify undervalued market opportunities. Synthesized financial data through exhaustive analysis to build a high conviction investment thesis, ultimately securing a first-place finish after defending a strategic “strong buy” recommendation before a panel of executive level finance professionals.
- Hand Gesture Recognition Game** | Group Project **August 2025 -May 2026**
- Developed a gesture-controlled gaming interface utilizing machine learning and Googles MediaPipe. Leveraged local camera feeds to map specific hand postures to core gameplay mechanics, including offensive and defensive maneuvers.
- AI Investor Platform** | NKU Hackathon, sponsored by Fidelity **September 2025**
- Engineered a full-stack paper trading platform using MongoDB and JavaScript featuring real-time options simulation and an integrated AI chatbot for fundamental analysis.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python, C#, C++, PHP, SQL, HTML/CSS, Dart, Flutter
Frameworks/Libraries: React, Redux, Node.js, Express, Sequelize, MediaPipe, Bootstrap, Quant Connect
Tools/DevOps: AWS, Docker, MongoDB, Git, Bitbucket, Jira, Postman, Mocha, Chai, WSL

EDUCATION - Northern Kentucky University

Bachelor of Science, Double Major: Computer Science & Applied Software Engineering **Expected: May 2027**
Honors and Awards: College of Informatics Dean’s List, Valedictorian of Mason County High School **3.77 GPA**
Affiliations: Governor Scholar Alumni for Entrepreneurs & Alpha Tau Omega Fraternity

VOLUNTEERING

St. Elizabeth Student Fundraiser **2023 – 2026**
Helped organize St. Elizabeth’s Women’s Wellness Benefit Dinner, raising nearly \$120,000 over three years for medical supplies and diagnostic equipment to support women in need.
